IS COFFEE COUNTY IN BETTER CONDITION THAN IT WAS EIGHT YEARS AGO?

We hear a reference made to running on his record. What is his record? Let's check it out before you vote. i fail to see where much has been accomplished in the past eight years.

We have waited until a Circuit Judge has intervened in the picture and now he will help govern our county. When was the last time a road was paved in Coffee County?

When was the last time you heard someone praise the rural garbage pickup system in Coffee County? We are now being threatened with a lawsuit by an

architectural firm in Dothan because of a signed contract dispute. Good business practices? ?'? How long has it been since the commissioner stood

up and helped move a piece of business that makes Coffee Countians feel good?

Do you want four more years like the last eight?

## District 4, Place 2

I feel the time to unite Coffee County is long overdue. It is time to unite, not divide.

There are many problems that need to be taken care of other than the courthouse issue. There is much business that needs to be worked on before - and not always after - the issue is pressed by lawsuits, delegations, etc.

Has any effort been made in the last four-eight years to get the entire county working together?

I feel it would be to our advantage to have the Probate Judge, County Commissioners, State Senator, State Representative, plus the mayors of Enterprise, Elba, New Brockton and Kinston to sit down and help each other on the common problems of the people of Coffee County. HAS THIS EVER BEEN DONE?

Together we can build a better Coffee County, but individually we struggle and continue to fall short.
